

**DIAVAL<sup>®</sup> Aseptic and Bio Tec valve range**

New synergies have been established with a leading European designer and manufacturer of ultra pure aseptic valves for the pharmaceutical and cosmetics industry. The valves are badge manufactured for DIAVAL and accommodates to every individual customer requirement. They are, basically, customer oriented valves having all accreditations and certifications needed in this industrial field.

Designs range from "conventional" patterns to Taylor made solutions such as block bodied valves, flush bottom, manifold disposal and with all grades of polished finish.

The Bio Tec line is complemented with the genuine DIAVAL sanitary cast for food and dairy industries.

More details and data sheets will be soon available through our DIAVAL site.
